

Three new skills built and validated.

Skill	Purpose	Lines
brudo-work-panel	Formal WORK_PANEL object — recoverable bounded operations, overlap contracts, return packets, non-collapse of neighboring maps	86 · PASS
brudo-source-custody	Source registry + claim ledger with custody fields (retrieved_at, fingerprint, evidence class, referential integrity)	71 · PASS
brudo-campaign-package	Reusable research-campaign contract — package artifacts, independent lineages, launch queue with stop conditions, failure conditions	83 · PASS

Full custom skill stack now

Skill	Role
brudo-operating-status	Fail-closed status + authorized initiative
brudo-lexical-technology	Closed 12-term operating vocabulary
brudo-lexitek	Coordinate-class pressure / promotion-demotion
brudo-work-panel	New — native panel object + overlap contracts
brudo-source-custody	New — evidence chain / custody
brudo-campaign-package	New — campaign bootstrap contract
brudo-respiratory-adaptation	Physiological + epistemic kernel (PKG archive)
respiratory-adaptation-canon	Near-duplicate of the above (consider consolidating)
critical-infrastructure-cyber-resilience	CI cyber comparative research

Note

brudo-respiratory-adaptation and respiratory-adaptation-canon largely overlap. Say if you want one retired or merged.

Next options if you want more:

- legal-filing-atlas (51-jurisdiction registry)
- mechanistic-rendering (pressure/flow validation pipeline)
- closed-loop-map-interrogation as standalone
- consolidation of the two respiratory skills
